

North American Architectural Sizes

In addition to the North American ANSI system, there is a corresponding series of paper sizes used for architectural purposes. This series of paper sizes is preferred by North American architects because the aspect ratios (4:3 and 3:2) are ratios of small integers, unlike their ANSI or ISO standard counterparts.

Portrait				
Size	Width (mm)	Height (mm)	Width (in)	Height (in)
Arch E	914	1219	36.0	48.0
Arch E1	762	1067	30.0	42.0
Arch D	610	914	24.0	36.0
Arch C	457	610	18.0	24.0
Arch B	305	457	12.0	18.0
Arch A	229	305	9.0	12.0
