## About This Chart

This chart was created as a high level guide for beginning photographers. It's intended to help you learn about the basics of photography. If you're unsure what something means you can click the box to watch a video about that topic.

This chart was created as an interactive PDF document. If your chart isn't interactive you can download the latest version at: [www.snapfactory.com](http://www.snapfactory.com). Just click "The Where To Start Chart" link at the top of the page.

This chart is free to everyone. You have permission to share this chart on your website, with your photo club, on Facebook, or wherever you'd like. But please don't modify it in any way.

This chart is updated regularly. If yours is a few months old, you may wish to download the newest version. Last updated: September 27, 2014.
